

## Harry Long - Grade 8 – Mark sheet for Niagara Sustainable Tourism Development Scheme

Requirement	Present	Sustainability Grade (see grading below)	IGCSE Grade (see grading below)
Excel Costing Sheet showing how the money will be spent.	Yes	1	A*
Comment: Niagara Mall – The Mall By The Falls – Sounds great! Very American. Like the logo too. Excel sheet has been developed into a fully explained balance sheet. Great work. Just within budget too. What will you do with all that money left?? Excellent plan for electricity selling to national grid.			
'Show the Manager' S.E.E sheet.	Yes	1	A*
An excellent summary of your proposed developments spanning all three elements of sustainability. Job creation is clearly shown too. Impressive to be creating so many FT jobs.			
Building sketch design annotated with design features & list of activities associated with development	Yes	1	A*
Seven Comprehensive plans with measurements and full annotations present making excellent use of space and with the aim of maximizing potential revenues in some inventive ways. A real strength of the plan.			
A3 site plan showing redevelopment features	Yes	1	A*
Report – A far reaching report that justifies the majority of your choices and makes excellent arguments for why you chose certain schemes yet rejected others. It is very persuasive and gives the reader utter confidence in your ability to research possibilities and calculate your costs from pre-existing schemes. A word of caution with regards to social sustainability. It is more than people just being friendly to one another.			
Written report – Minimum 500 words.	Yes	1	A*

Sustainability Grade	
1	Socially, economically and environmentally excellent. Well thought out and will last for a long time and within budget
2	<b>Socially, economically &amp; environmentally sound. Some minor omissions but overall would work well and within budget.</b>
3	<b>One of the S.E.E factors may be missing and some parts of the development may not work well or last very long. May be over budget a little.</b>
4	The development is not sustainable at all. S.E.E has not been considered and plans don't fit in with local styles and cultures. Won't last long and may be very expensive / over budget.

IGCSE Grade	
<b>A*</b>	Exceptionally strong knowledge and understanding
A	Very strong knowledge and understanding
<b>B</b>	Strong knowledge and understanding
C	Sound knowledge and understanding
<b>D</b>	Some knowledge and understanding

Signed by Mr M J Podbury (Planning Officer, Niagara) – Overall Grade. **Overall A\*1 – offer accepted. You're hired!**  
**When can you start building???** Well done Harry on a comprehensive piece of decision making and critical thinking. One to add to your blog. MPO
